guides to make sure your images comply with the platform guidelines: by choosing a fantastic Photo of the Facebook cover The strict rules for the Facebook cover Photo dimensions and profile images means that it is limited to how much information can transmit on your page. However, mobile users see 640 pixels wide by 360 height pixels. After all, if your customers focus on your cover photo for too long, you may not have time to see the rest of your page. Relevance: The image you choose should fit with the nature of your company and the interests of your audience. Means approved by the brand at the tips of your computer's fingers with the burst asset library, a consistent visual style shows your brand identity when using the Sprout Asset Library. Was the good news? Fortunately, if you follow the previous guidelines, and adheres to the rules provided by this gigantic social networking channel, you must have everything you need to participate and delight your customers. While it is reviewing the specifications for the photos on the Facebook cover, be sure to review other brand profile guidelines, too. Remember: Covers must be authentic: in other words, they can not be fucked up, mischievous or malicious in any way. With the guidelines below, it is easy to optimize your Facebook header with the correct dimensions of the cover size. Too big and important parts of its content will be cut. In fact, we process images up to 60,000 times faster than the text. The covers are public; you must choose something that is going to appeal to a wide audience of potential followers and Existing The idea of clearance as a tool for the collaboration that gets things that run on the appropriate channels is reflected in an intriguingly scarce photo with pops of branding theme colors. The image is not excessively polished or overwhelmingly promotional, which is perfectly found with the cover. sheath. brand brand voice. It demonstrates what youAAre selling to interested customers and entices them to come and learn more. Just use our free tool Landscape to get the perfect Facebook cover photo size. While thereeAAs no one-size-fits-all solution for the perfect cover photo, some of the most shareable images will include: Text: Be cautious here, a small amount of text like a brief slogan can help to describe your brand, but too much could overwhelm your photo. While videos help you to go the extra mile in telling your company narrative, youeAAll still need to be smart when choosing what to showcase. Some people think that iteAAs best to combine their profile picture and cover photo into a single cohesive image. Not only do these typically look a bit too aggressive, but your buttons and CTAs will also show up differently on mobile devices compared with desktops. Remember, your Facebook cover photo doesneAAt necessarily need to be static anymore. All you need to do is pick an image that resonates with the right target audience and pushes them to click on that eAAsfolloweAAs or eAAsend messageAAs button. With the right Facebook photo cover, you can engage your audience and earn their attention long before they read your social media posts. Keep in mind that a huge portion of todayeAAs Facebook audience is mobile, so ensure that none of your important content will be cropped out on a different device. Covers are yours alone: Brands caneAAt ask advocates to load their Facebook cover photo onto their timelines as an advertising technique. Of course, thereeAAs nothing to say that you caneAAt do both things simultaneouslyeAAso long as it looks good. HereeAAs some more notes on having the best Facebook cover photo: You must have a minimum size of 400 x 150 pixels. You can now use a simple video instead of a static cover photo, which is a great way to share more information about how your business works. While it might be tempting to let its content prior to the fold full of keywords and information, your visitors seek a clean introduction to your company. It is important to note that, when looking for ways to take care of the audience's attention, be sure to avoid using directional signals as arrows. As we have mentioned throughout this article, just make sure you are leading with an image that is convincing visual first instead of bombing your audience with information in the cover space. Ideally, you will want something that only up to one minute long. Here, Evernote uses an illustration with simple brand elements that sets the tone without completely distracting the rest of the page. For best results, load a SRGB JPG file less than 100 kb. This Oreo Facebook cover uses a beautiful graphic image on the right side of the photo of its cover to attract the eye to the "Possibility Message" button. Remember that old phrase "Do not judge a book on your cover? Well, that does not apply in the world of social networks. Emotion: Happy customers or smiling staff can capture the audience's interest and make it be enthusiastic about its organization, product or service. Other experts prefer to extend their images so that it focuses on the correct spaces on the page. With that in mind, it is important to make sure that your cover photo represents what you do Your brand. Creation of the photo of the perfect cover by choosing the right images, style and size for the photo of Facebook cover is not always easy. Slack mocks up the function of its product on an underestimated manner that finally attracts the audience on the page. The general experience is a highly cohesive page that focuses on the correct elements on the page.
